Minimum weekly payments are to continue until the loan amount and any interest accrued is repaid in full

The final payment made is a 'balancing payment' which can be below the minimum \$49

Total amount of PAYMENTS

If the loan runs full term and all \$49 payments are made when due your total amount of payments is equivalent to the amount(s) under "Total Advances" indicated in Schedule A "Credit Details"

Schedule C: Fees and Charges

Default interest charges

In the event of a default in payment we do not make default interest charges as that expression is defined by the CCCFA.

However, if you do not repay the instalment when it is due we will continue to charge you the interest rate specified in the INTEREST section of Schedule A Credit Details and the unpaid installment will be added to the balance. We charge that from the day your payment falls due and calculate it by multiplying the unpaid balance at the end of each day by the interest rate. The weekly interest rate is calculated by dividing the annual interest rate by 52. The interest is charged to your account each instalment period.

Dishonored payments and default fees

A dishonored payment is where an instalment amount does not transact or is partially transacted from you to us on the date which it was due. For each dishonored payment a \$20 dishonored fee is charged and added to your unpaid balance. We will continue to charge you interest at the interest rate specified in the INTEREST section of Schedule A "Credit Details" on the unpaid balance (compounding). Your minimum weekly PAYMENT amount of \$49 will remain the same with the loan term extending (i.e.: it will take you longer to repay the unpaid balance), noting that you can pay off more of your loan at any time, including a missed or partial payment, by making additional payments.

Debt collection agency fees and commissions

If you do not pay the unpaid balance when it is due or have had three instalments dishonored at any time over the term of your loan we can refer your debt to an agency to collect. Where we elect to do so the fees and commission charged by a debt collection agency will be added to your balance and will be payable by you. Once we refer your debt to the agency, even if you then pay the unpaid balance to us or to the debt collection agency in full, the debt collection fees and commissions charged by our debt collection agency will still be payable by you.

Solicitors' costs

Acting reasonably, should we need to instruct a solicitor to act for us in recovering the unpaid balance any fees incurred between us and the solicitors' will be payable by you. Fees will be added to your unpaid balance and will incur interest as per the INTEREST section of Schedule A Credit Details.

Payment reduction and loan term extension administration fee

Should a payment reduction be agreed by us in response to a request by you under a hardship application a one-off \$150 fee will be added to your unpaid balance. Your minimum weekly PAYMENT amount will become \$25 from a date set by us after your hardship application is agreed with the loan term extending noting that you can pay off more of your loan at any time by making additional payments.

Payment holiday and loan term extension administration fee

Should a payment holiday be agreed by us in response to a request by you under a hardship application a one-off \$150 fee will be added to your unpaid balance. Your minimum weekly PAYMENT amount will be stopped from a date set by us after your hardship application is agreed with the loan term extending noting that you can pay off more of your loan at any time by making additional payments.

Variation interest rate charge

In the event of a variation to this loan agreement by us as a result of a hardship application by you, you will be charged an additional 5% per annum on the unpaid balance for each variation made at the time the variation is agreed and implemented by us for the full term of your loan even if you catch up on any repayments and defaults within the term of your loan. The variation interest rate charge is applied each time your loan is varied due to a hardship application by you that is agreed to by us. The total amount of interest and fees on your loan is capped at 100% of the amount first advanced to you by us.
